Experience

UI UX Designer (Internship)

PetroCortex

May & June 2026

- Designed high-fidelity screens and user flows for the Omnilor platform.
- Created interactive prototypes to validate user journeys and communicate design solutions.
- Built and maintained a scalable design system using reusable components and design variables.

UI UX Projects

Feb 2026- Apr 2026

- [Orbit - Trading Dashboard](#)
- [KYC Onboarding](#)
- [Garlic - Digital Solution](#)
- [Contextual Spending Insights](#)

Financial Trader (Forex & Crypto)

2023 – 2025

- Analyzed financial markets (Forex & Crypto) using **Technical Analysis** and **Liquidity Flow** patterns to inform data-driven decisions.
- Gained a deep understanding of **Blockchain Architecture**, **Smart Contracts**, and **DeFi Protocols**.
- Applied **Risk Management** strategies, providing a unique perspective on **User Psychology** and reducing cognitive load for high-stress financial interfaces.
